(1) Primary dealers report directly to the Market Reports Division of the New York Federal Reserve Bank and must meet minimum volume and capital guidelines. Primary dealers are generally able to offer the best price because they have access to the inside market and are able to inventory securities. There are no MWBE primary dealers at this time. Secondary dealers are smaller, regional firms that generally do not hold securities in inventory and must purchase them from primary dealers or other clients.

(2) The amount of trades exceeds the actual amount awarded because three or more competitive bids/offers are sought on each trade.

(3) Dealer Activity summary includes only those trades (purchases and sales) shown to dealers by our Investment Advisor, First Southwest Asset Management, Inc.; it does not include Section 108 escrow funds, repurchase agreements, money market mutual funds, or local government investment pool activity.

STRATEGY STATEMENT

The City's Investment Pool is an aggregation of the majority of City funds that includes tax receipts, enterprise fund revenues, fine and fee revenues, as well as some, but not all, bond proceeds, grants, gifts and endowments. This portfolio is maintained to meet anticipated daily cash needs for City of Dallas operations, capital projects and debt service. In order to ensure the ability of the City to meet obligations and to minimize potential liquidation losses, the dollar-weighted average stated maturity of the Investment Pool shall not exceed 1.5 years. The objectives of this portfolio are to: a) ensure safety of principal by investing only in high-quality securities for which a strong secondary market exists; b) ensure that anticipated cash flows are matched with adequate investment liquidity; c) limit market and credit risk through diversification; and d) attain the best feasible yield commensurate with the objectives and restrictions set forth in the Investment Policy by actively managing the portfolio to meet or exceed the 12 month moving average yield on treasury one-year constant maturities as reported by Federal Reserve Statistical Release H.15.

STRATEGY COMPLIANCE STATEMENT

For the quarter ending June 30, 2005 the Investment Pool is in compliance with the relevant provisions of the Public Funds Investment Act and the investment strategy adopted in Sec. 17.1 of the City's Investment Policy.

The consensus interest rate forecasts of over 40 economists polled by Blue Chip Financial Forecasts during the months of March and June are summarized below and reflect the change in expectations between the two surveys. The Federal Reserve raised its target overnight Federal Funds rate by 25 basis points at both the May and June meetings bringing it to 3.25%. The consensus forecast continues to expect the FOMC to boost rates at a "measured" pace in 2005 producing a year end funds rate target of between 3.75% to 4.00%. Real GDP growth over the next 12 months is expected to average 3.4% and the annual rate of change for inflation, as measured by the Consumer Price Index, is anticipated to be 2.5%. The yield on the Investment Pool is reflecting a higher yield environment and continued gradual improvement is anticipated through the end of 2005.

STRATEGY STATEMENT

The TU Electric Reserve portfolio was established by City Ordinance for the deposit of Texas Utilities Electric Company prepaid franchise fees. Interest earnings on this portfolio will be used to fund future ratemaking expenses pursuant to the TUEC franchise ordinance and to provide an additional source of funds for the General Fund during the 15-year franchise term. In order to maximize the interest income generated by this portfolio, City Council adopted Ordinance 21665 on May 12, 1993 authorizing investments in securities purchased for this portfolio to have maturities up to 15 years. The TUEC franchise term ends in October 2008 and therefore investment maturities should not exceed that date. The objectives of this portfolio are to: a) ensure safety of principal by investing only in high-quality securities for which a strong secondary market exists; b) ensure that anticipated cash flows are matched with adequate investment liquidity; c) manage market and credit risk through diversification; and d) attain the best feasible yield commensurate with the objectives and the restrictions set forth in the Investment Policy and Ordinance 21665.

STRATEGY COMPLIANCE STATEMENT
