# Dallas Municipal Court System An Overview

## Ad Hoc Committee for Judicial Appointments June 19, 2012

Short Version

# Purpose

- To provide an overview of the effectiveness of Municipal Court operations by reviewing:
  - Jurisdiction of the Court
  - Recent improvements
  - Processing of citations
  - Delinquent revenue collection efforts
  - Best practices of other cities
  - Challenges
  - Improvement opportunities

# Local Justice

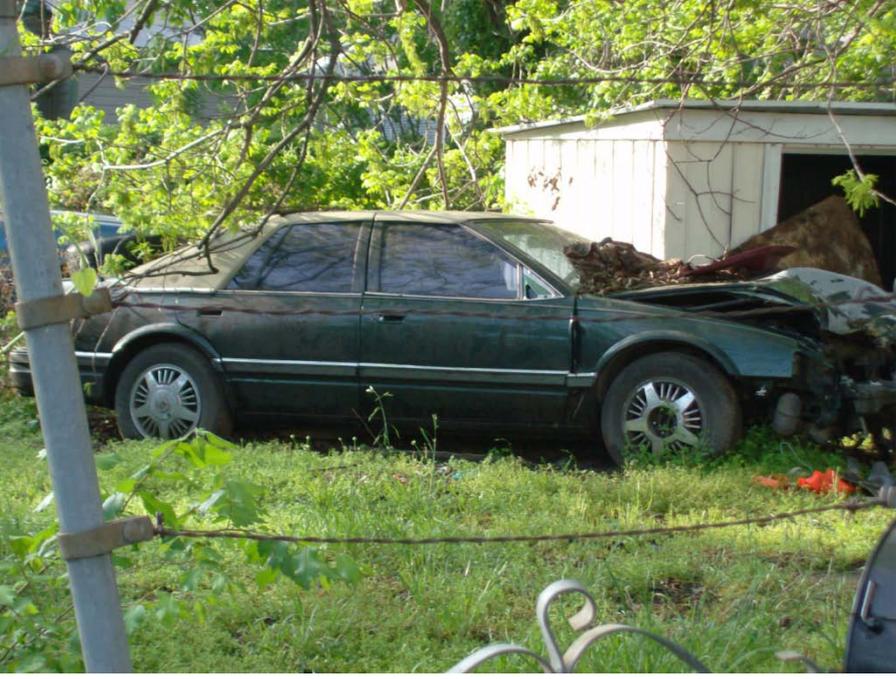

- Courts are part of the community's effort to maintain order, preserve community values, and protect quality of life
- This effort includes setting of laws, enforcing them, insuring that enforcement is accurate and fair, providing penalties for infractions and compensation for enforcement abuse

# Dallas' Local Justice

- Municipal Court's jurisdiction includes enforcement of City and State laws regulating not only traffic, but many quality of life behaviors including:
  - fire hazards, restaurant safety, weedy lots, housing, zoning, junked motor vehicles, illegal dumping offenses, litter, prostitution, sleeping in public place, panhandling, public intoxication, disorderly conduct etc.
- These quality of life issues often become the focus of neighborhood concerns

# Profile of FY 10-11 Violations

**FY 10-11 Total Violation Count 303,275**

**Total Dollar Value \$71M \***

- \$47.8M Fine Value – Eligible Revenue to the City
- \$23.3M Court Costs Value – Monies designated to the State

- Assumes all citations are valid, found guilty, and collected within 21 days
- Does not reflect the maximum allowable fine (roughly 60%)

# Compliance

- Compliance is most achieved when people believe:
  - Laws are appropriate
  - Enforcement is fair
  - Penalties are real and timely

# Keep in Mind

- **720.002. Prohibition on Traffic-Offense Quotas**
  - (a) A political subdivision ... may not establish or maintain, formally or informally, a plan to evaluate, promote, compensate, or discipline:
    - (1) a peace officer according to the officer's issuance of a predetermined or specified number of any type or combination of types of traffic citations; or
    - (2) a ... judge of a ...municipal court of record according to the amount of money the judge collects from persons convicted of a traffic offense.
  - (b) A political subdivision ... may not require or suggest to a peace officer, or... a judge of a ... municipal court of record:
    - (1) that the peace officer is required or expected to issue a predetermined or specified number of any type or combination of types of traffic citations within a specified period; or
    - (2) that the ... judge is required or expected to collect a predetermined amount of money from persons convicted of a traffic offense within a specified period.

# Court System Functions

- Municipal Court is a critical component of establishing a sense of fairness of the administration of laws as well as a sense that community rules need to be followed
- The Court system's basic functions are:
  - Administration (Court Services) (City Clerks)
  - Prosecution
  - Judiciary\*

\* More in depth discussion of the role of the Judiciary in the appendix

# Court Improvements

- Over the last several years, Court Administration, Police, CIS, Public Works, EBS, Prosecutor's office, and the Judiciary have undertaken a number of process and physical improvements to make a positive impact on our principal customer's interactions with Courts as well as improving operational efficiencies. Council support was critical.
- The following analysis points out additional opportunities

# Court Improvements

- Using the ZIP\* process, numerous improvements have recently been implemented resulting in:
  - Reduced court settings from an average of 9 months to 1 month
  - Increased docketing capacity by 67%
  - Increase compliance 10% by implementing Scofflaw (violator can not register car before clearing up pending citation)
  - Average per case collected increased from \$70 to \$81
  - Average wait time at the windows has been reduced from 60 minutes to 10 minutes
- Took a team effort

\* ZIP is a management tool to seek operational efficiencies (See appendix)

# Court Improvements

- Near term facility improvements underway
  - Target completion: December 2012
- New technology being implemented
  - E-Citation
    - Target for Traffic motorcycles implementation: July 2012
  - Court Notify
    - Target implementation: End of current year
  - New Court Case Management System
    - Target date for implementation: 4<sup>th</sup> Qtr 2013

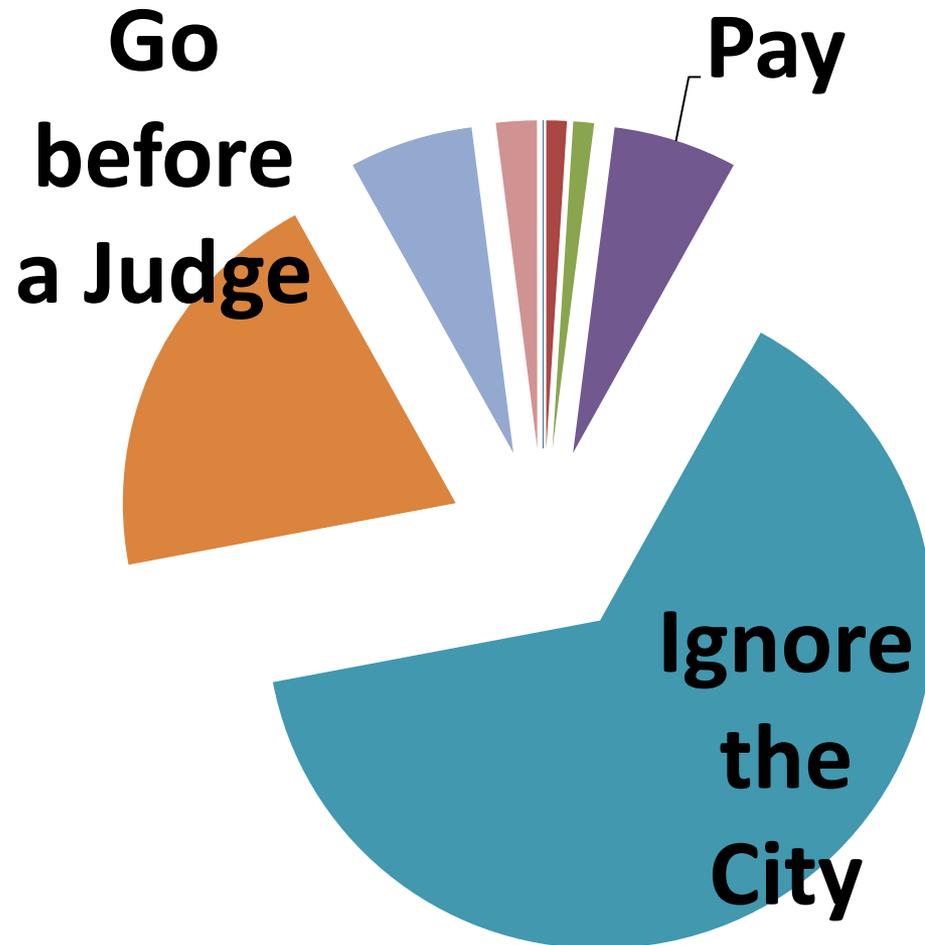

# Court Improvements

- Additional specific Judiciary improvements include:
  - Establishment of Proof or Plea Court
  - Establishment of a Saturday Court docket
  - Changed Magistrate Court to a Trial Court
  - Establishment of double trial dockets (Jury or Non Jury Morning and Afternoon)
  - Added flexibility via off docket for Alias warrants, where a defendant wishes to plead
  - Other off-docket improvements (rotating off-docket Courts)

# Court Effectiveness

- To get a sense of how we are achieving compliance and getting operational results and efficiencies, we analyzed how tickets are being disposed of and costs of operation in two ways:
  - A fiscal year review
  - A five day snap shot

# Options for Defendants

# Fiscal Year Review

- We reviewed the **dispositions** of cases that occurred during the last full fiscal year FY 10/11
  - Dispositions would include not only cases filed during the 10/11 fiscal year, but also cases filed in previous years, but heard in FY 10/11

# FY 10-11 Violations versus Dispositions

# Round-up

# Marshal's Office Warrant Round-Up

## Great Texas Warrant Round-Up

- Includes more than 270 Texas Law Enforcement Agencies annually.
- 2012 marked the 6<sup>th</sup> statewide warrant round-up.
- State Warrant Round-Up compliance efforts consist of:
  - Mailed notices to defendants
  - Bill boards announcements
  - Statewide announcements
  - Radio announcements
- Statistics regarding the overall success of the project are required from each participating agency.

## Dallas Marshal's Warrant Round-Up

- In addition to the Great Texas Warrant Round-Up, the Dallas Marshal's Office conducts two internal Round-Ups annually.
- Summer and Fall Warrant Round-Ups are conducted annually utilizing Dallas Marshals, targeting defendants having 3 or more outstanding City of Dallas warrants.
- Compliance efforts consist of:
  - Mailed notices
  - Telephone calls
  - Payment tracking

# 2012 Warrant Round Up

## Usage of Time Served Recap

- In the 2,043 Cases
  - Involved 893 defendants
  - Arrest cost was approximately \$71,000
  - 30% were Quality of Life Citations (Sleeping in Public, Prostitution, etc.)
  - Value of tickets was \$538,090 or 3,442.2 days of time served following State law minimum guideline
  - 96% were granted time served and paid no money
  - Total penalties imposed: \$20,360 and 522.2 days
    - To date, \$2,187 has been received

# Marshal's Office Warrant Round-Up

- Significant effort is made to arrest those failing to take care of their outstanding tickets
  - Estimated cost to arrest each defendant is \$80
- During Round Up efforts, most citations are disposed of with the time served while being processed in Jail
- Other possibilities exist:
  - Work release
  - Community Service
  - Jail time (consistent with State Law)

# Time Served

# Time Served

- Time Served is the practice where a defendant is given “credit” for time they served in jail to offset a monetary fine
- Under State Law
  - Defendants, following certain procedures, **must** be given credit for the time they serve for other violations or in other jurisdictions
  - State Law provides that \$50 worth of fine should be offset by no less than 8 hours, but no more than 24
    - This **amount** of the credit given for time served is a matter of dispute in our system
    - Review of sample records suggest there is no standard

# Time Served

- Current practice is that a defendant may have their tickets disposed of with 'time served' if he
  - Is arrested and spends any time in jail before he comes before a judge
  - Has spent any time in jail on other violations (whether in other jurisdictions, different types, or multiples of same type, etc.)
  - Has spent some time in jail and brings multiple tickets before the Judge; is then applied concurrently
    - If a person has ten tickets and is in jail one day, all tickets are credited with the one day
    - The fine is usually set at a level where the time served offsets the fine

# Time Served

- Reasons given for the practice include:
  - Defendant's freedom was taken, that should be sufficient
  - If monetary penalty is added to jail time, penalty is imposed twice,
  - Lack of jail space; it costs the City to have a prisoner in jail
  - This provides a means to clear tickets outstanding status

# Other non-financial penalties

# Work Release

- Work release
  - Court program that allows a defendant to work at the City of Dallas in lieu of payment of fine
  - Seven departments utilize the City's work release program (custodial duties, etc.)
  - Non-docket process by the court clerk (if amount due is less than \$600) or granted in the courtroom
  - Current practice is credit given at \$100 per 8 hour work day

# Community Service

- Community Service
  - Court program that allows a defendant to work at a non-profit agency (or coordinated through the Volunteer Center) in lieu of payment of fine
  - Non-docket process by the court clerk (if amount due is less than \$600) or granted in the courtroom
  - Current practice is credit given at \$100 per 8 hour work day

# Jail Time

- Jail Time

- State law provisions

- Class C Misdemeanors are not punishable by jail time; fine only
    - However, time served in jail can be credited as discussed above
    - Warrants for a person's arrest are issued for failing to appear in court or failing to comply with Judges' orders, with the understanding,
      - Failing to appear in court, alone, is not aailable violation
      - Failure to comply with a judge's order is aailable violation

# Jail Time

## – Detention options

- Lew Sterrett Jail

- City contracts with Dallas County for the provision of 100 beds a day for Class C's
- Most of the City's costs are fixed
- An additional \$58 is charged per night for each bed used
- Currently use about 42% of its capacity

- City Detention Center

- Owned and operated by the City
- Has a capacity for about 160 individuals
- Currently used for intoxication and other Class C violators; used for quicker Police turnaround

# Jail Time

- Jail time is used by those\*:
  - Arrested and awaiting a Judge (magistration) to enter a plea, be sentenced for failure to comply with judgments, be declared indigent, be found guilty, etc.
  - Choosing to “sit it out” (stay in jail) rather than pay
  - Ordered to stay for failing to comply with Judges’ order

\* In the context of Class C Misdemeanors

# Jail Time

- Judges have the discretion to set out jail time for those that have been found guilty and failed to comply with a Judge's order. Some of the factors that might be used in sentencing could be:
  - Lack of good faith effort
  - Personal circumstances of defendant
  - Physical condition of defendant
  - Financial ability of defendant (Indigency)
  - Other factors deemed appropriate by the Judge

# Overall Observations

- Many operational improvements have been implemented, or are in progress, to make the primary customer, the citizen, make their way through the Court more efficiently
- Low collection rates raise several concerns
  - Consistency with expectations
  - Impact on compliance, community safety and values
  - Impact on operational costs
  - Unintended consequences with changes

# Overall Observations

- Operations changes to upgrade scheduling of Police (Court Notify) and enhance ticket writing accuracy and court testimony (E-citations) are critical for the next level of Court operation improvement
  - Police have strengthened supervisory oversight of officers to insure they appear at designated trials and are prepared
  - A multi-departmental task group has been charged with completing enhancements on time

# Overall Observations

- Time served is used in a significant percentage of violations to dispose of cases
  - Raises questions as to the value of the Warrant Round Up effort, or any effort by police, to arrest those ignoring City notices
  - There is not agreement as to how State Law should be applied
- Fines rarely reflect cost of trial

# Overall Observations

- Most defendants choose to either ignore citations or go to Court. Is a logical choice:
  - Likelihood is the violation will be dismissed or result in less penalty than paying the fine upfront
  - No financial disincentives in going to Court
  - Ignoring citation creates little additional risk
    - Even if arrested, most receive little to no financial/community service/jail penalty

# Overall Observations

- The Judiciary is an independent body, however:
  - Can they, as a body, work to frame some parameters for operations and/or judgments?
  - What powers could be delegated to a presiding judge to manage these determinations?
- While operational efficiencies can be enhanced, it appears the market is responding to Municipal Court practices seeking least cost (first), least trouble (second), least damage to their driving record (third)

# Current Court Practices Comparison

Current Dallas Practice	Problem	Best Practice Elsewhere
Subpoena and court scheduling systems not integrated	Schedule conflicts result in case dismissals due to lack of witnesses, weakening effectiveness of laws	Court subpoena automatically blocks officer leave requests and system avoids conflicting court dates (Dallas County)
Defendant requesting a trial is still eligible to receive same reduced penalty previously available	Creates incentive to request trial as a maneuver to see if officer is absent, maximizing City's cost, but at no risk to defendant	No plea bargains on trial date, so conviction or guilty plea at trial yields maximum penalty. Most defendants take a deal in advance. (Plano)
Judges frequently grant repeated continuance requests	Increases likelihood that witness isn't available or can't recall details of case. Inconvenient for citizen, if City delays.	Resets require compelling justification (Richardson) Maximum 1 reset per side (Fort Worth)

# Current Court Practices Comparison

Current Dallas Practice	Problem	Best Practice Elsewhere
<p>Administrative judge can set policies, but has no other authority or direction to enforce</p>	<p>Administrative Judge has little authority to set and enforce local rules and procedures</p>	<p>A Presiding judge actively supervises other judges, issuing procedural and policy directives. Reviews performance and recommends on reappointment. (Austin)</p>
<p>Time served not tied to fine schedules</p>	<p>Lax valuation can remove incentive to obey laws</p>	<p>Time served in jail for City warrants is valued proportionally at \$100 per 24 hours clocked. (Fort Worth)</p>
<p>Community service and work release not consistently monitored at hourly rate to work off value of fine.</p>	<p>Lax valuation and monitoring can remove incentive to obey laws and fail to provide a substantive benefit to defendant or organization</p>	<p>Community service &amp; work release valued at \$12.50 per hour, monitored by Volunteer Center. (Garland)</p>

# Current Court Practices Comparison

Current Practice	Problem	Best Practice Elsewhere
Allow defendants who fail to respond to citations or appear for trial to have cases set on the trial docket by submitting an off-docket motion, but no bond	Defendant is allowed to delay a trial setting increasing likelihood that the officer will not recall the facts of the case. When the officer does not have factual recall, the case will be dismissed for insufficient evidence.	Defendants who do not respond to citations or trial settings are required to post either a cash or surety bond to secure their appearance at trial. (Plano)
Limited information is gathered on persons seeking payment plans.	Payment plan collections are poor.	More detailed information is collected making it easier to enhance collections. (Garland)

# Current Court Practices Comparison

Current Practice	Problem	Best Practice Elsewhere
No mandatory pre-trial hearings are conducted with defendants and prosecutors to determine if citations can be satisfied without a trial.	Often, trial settings are used to collect or give information which could be more efficiently handled at a pre-trial hearing.	Mandatory pre-trial meetings are held to collect information and resolve a citation without the need for a trial. This saves court resources which includes judges, bailiffs, and police overtime. (Irving)
Deferred dispositions are granted at a significant discount from the window fine.	Rationale for offering this benefit at half the window fine amount is flawed, given overall operational expense levels	Full window fine amounts are charged when deferred disposition is provided on the day of trial. (Irving)

# Current Court Practices Comparison

Current Dallas Practice	Problem	Best Practice Elsewhere
Paper intensive process for court docket paperwork	Limited automation makes operations expensive and information analysis extremely difficult.	Paperless trial docket system (Ft. Worth)
No tiered fine structure is offered for early payment	Without any financial incentive given, very few pay their fines within the first 21 days. More delay creates greater risk of defendants to seek court dates or ignore the citation altogether.	Tiered fines are provided which include a financial incentive for prompt payment. (Austin)

# Next Steps

- Proceed with technology improvements to address scheduling issues
- Determine if Council wishes to implement other changes included in recommendations

# Questions

# Dallas Municipal Court System An Overview

## Ad Hoc Committee for Judicial Appointments June 19, 2012

# Purpose

- To provide an overview of the effectiveness of Municipal Court operations by reviewing:
  - Jurisdiction of the Court
  - Recent improvements
  - Processing of citations
  - Delinquent revenue collection efforts
  - Best practices of other cities
  - Challenges
  - Improvement opportunities

# Local Justice

- Courts are part of the community's effort to maintain order, preserve community values, and protect quality of life
- This effort includes setting of laws, enforcing them, ensuring that enforcement is accurate and fair, providing penalties for infractions and compensation for enforcement abuse

# To Achieve Community Goals

- Enhance
  - Perception and reality of Public Safety
  - Economic Development efforts
  - Job creation
  - Property Values
  - City's Image
  - Educational Achievement
  - Overall Quality of Life

# To Achieve Community Goals

- Reduce
  - Fatalities or Injuries to Persons
  - Dilapidated Structures in Neighborhoods
  - Neighborhood Disputes
  - Neighborhood Nuisances
  - Environmental Hazards
  - Domestic Violence
  - Juvenile Delinquency

# Dallas' Local Justice

- Municipal Court's jurisdiction includes the oversight of laws set by the City and the State. They include laws regulating:
  - Traffic
    - Speeding
    - Running Red Light
    - Driving Wrong Way
    - Driving on Wrong Side of Road
    - Running a Stop sign
    - Failure to Yield Right of Way

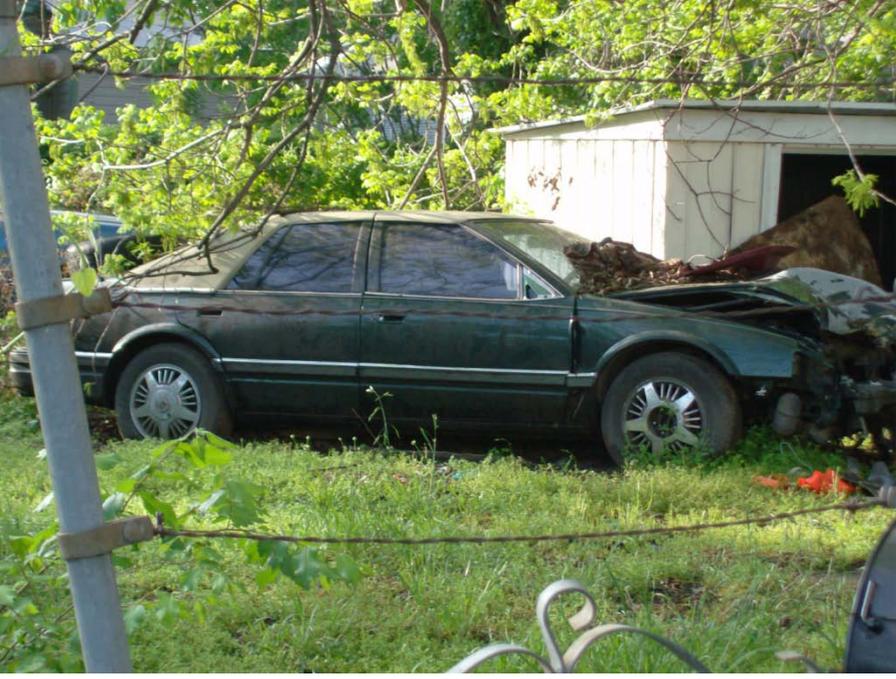

# Local Justice

- Fire Codes (overcrowding, open burning, hazardous material storage, etc.)
- Animal Control (noisy animals, dangerous dogs, cruelty, etc.)
- Environmental (Waste water, storm water, etc.)
- Housing Violations (Dilapidated structures, etc.)
- Consumer Affairs (contract disputes, misrepresentations, etc.)
- Parking Appeals
- Red Light Camera Appeals

# Local Justice

- High weeds, junked motor vehicles, illegal dumping offenses
- Health and Sanitation, storm water, etc.
- Restaurant/food establishment, health, rodent control
- Anti-litter regulations
- Dance hall offenses
- Urban Rehabilitation Docket (Housing Demolition or Repair)

# Local Justice

- Homeless – Solicitation, sleeping in public place, panhandling, urinating or defecating in public
- Assaults – Assault by contact and assault by threat (Texas Penal Code)
- Crime (public intoxication, disorderly conduct, etc.)
- Transportation (Taxis, Limos, etc.)
- City Licenses (Dance halls, etc.)
- Pawn Shop Regulation (Return of Stolen Property)
- 8 Liner Gambling Machines
- Bond Forfeitures (Surety and Cash)

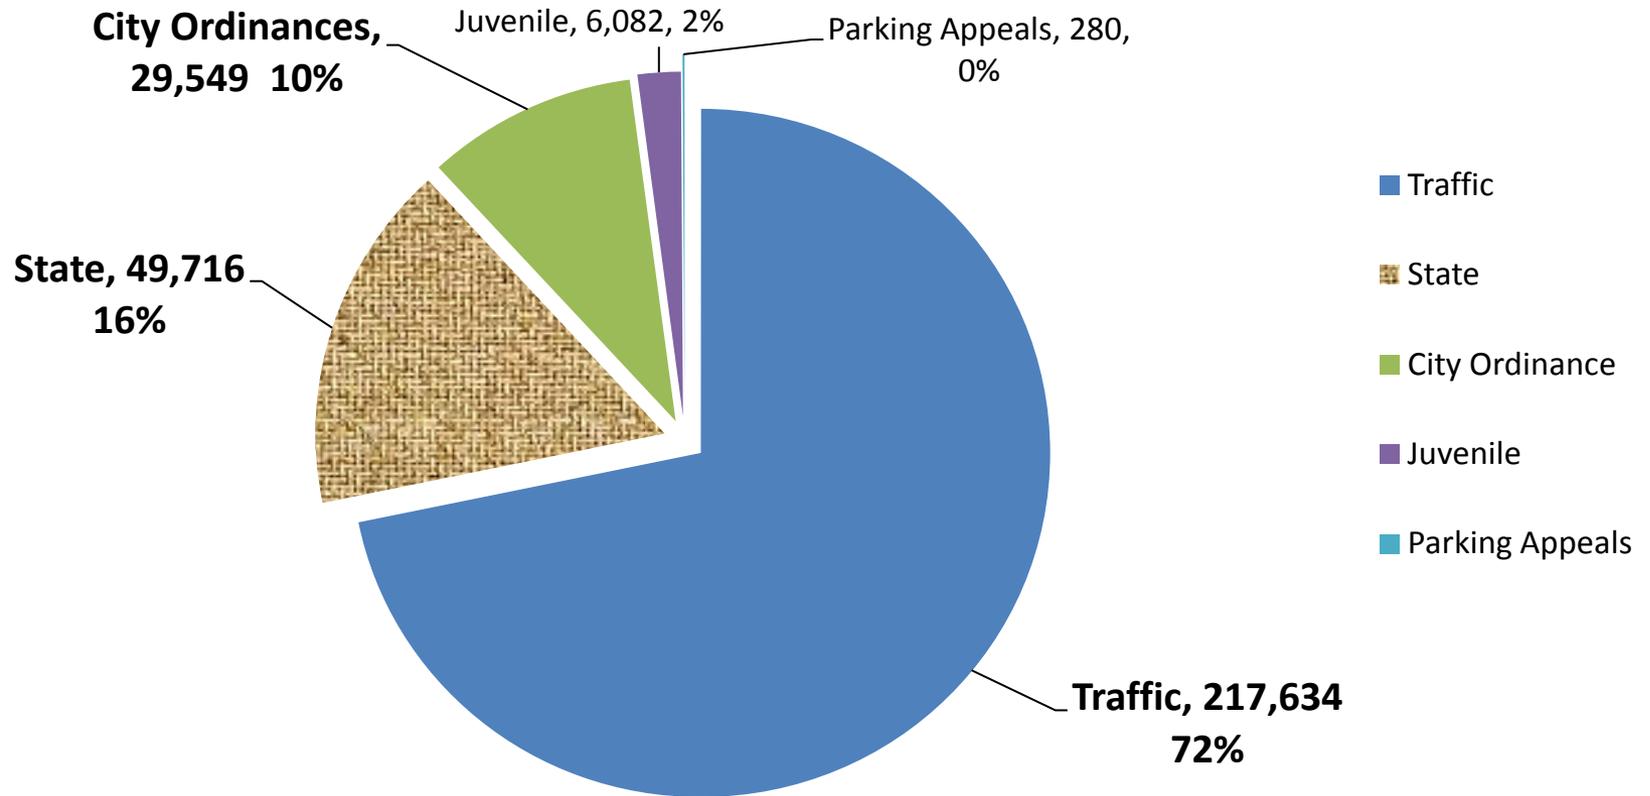

# Local Justice

- Zoning offenses – No certificate of occupancy, illegal land use, illegal outside storage, illegal fence, illegal signs, etc.
- Drug Offenses - Selling illegal drugs and chemicals, solicitation to purchase a prohibited substance
- Prostitution – Engaging in prostitution
- Theft – Theft under \$50.00
- Red Light Camera Appeals
- Junk Motor Vehicles

# Community Courts

- A part of the Dallas Municipal Court system
- Neighborhood-focused and target quality of life crimes in a designated community
- Current operations principally paid for by CDBG funds
- Prostitution Division Initiative (with Dallas County)
- Penalties include community service, mandatory counseling or rehabilitation

# Profile of FY 10-11 Violations

**FY 10-11 Total Violation Count 303,275**

**Total Dollar Value \$71M \***

- \$47.8M Fine Value – Eligible Revenue to the City
- \$23.3M Court Costs Value – Monies designated to the State

- Assumes all citations are valid, found guilty, and collected within 21 days
- Does not reflect the maximum allowable fine (roughly 60%)

# Compliance

- Compliance is most achieved when people believe:
  - Laws are appropriate
  - Enforcement is fair
  - Penalties are real and timely

# Compliance

- Compliance with the law can be measured in a number of ways
  - Corrective actions taken
  - Citizen response to citations
    - Pay, dispute, ignore (even when cited for Failure to Appear)
  - Rates of recidivism
    - Serial offenders
  - Payments made when violations are proved
    - Cash
    - Community Service / Work Release

# Court System Functions

- Municipal Court is a critical component of establishing a sense of fairness of the administration of laws as well as a sense that community rules need to be followed
- The Court system's basic functions are:
  - Administration (Court Services)
  - Prosecution
  - Judiciary\*

\* More in depth discussion of the role of the Judiciary in the appendix

# Keep in Mind

- **720.002. Prohibition on Traffic-Offense Quotas**

- (a) A political subdivision ... may not establish or maintain, formally or informally, a plan to evaluate, promote, compensate, or discipline:
  - (1) a peace officer according to the officer's issuance of a predetermined or specified number of any type or combination of types of traffic citations; or
  - (2) a ... judge of a ...municipal court of record according to the amount of money the judge collects from persons convicted of a traffic offense.
- (b) A political subdivision ... may not require or suggest to a peace officer, or... a judge of a ... municipal court of record:
  - (1) that the peace officer is required or expected to issue a predetermined or specified number of any type or combination of types of traffic citations within a specified period; or
  - (2) that the ... judge is required or expected to collect a predetermined amount of money from persons convicted of a traffic offense within a specified period.

# Court Management

- While there are many “customers” in the Court’s system, to the citizen, Courts should operate in a way that is:
  - Fair (defendant is presumed innocent)
  - Easy to understand
  - Convenient
  - Dignified and respectful
  - In a comfortable surrounding
  - Timely
  - Resolution oriented

# Court Improvements

- Over the last several years, Court Administration, Police, CIS, Public Works, EBS, Prosecutor's office, and the Judiciary have undertaken a number of process and physical improvements to make a positive impact on our principal customer's interactions with Courts as well as improving operational efficiencies. Council support was critical.
- The following analysis points out additional opportunities

# Court Improvements

- Using the ZIP\* process, numerous improvements have recently been implemented resulting in:
  - Reduced court settings from an average of 9 months to 1 month
  - Increased docketing capacity by 67%
  - Increase compliance 10% by implementing Scofflaw (violator can not register car before clearing up pending citation)
  - Average per case collected increased from \$70 to \$81
  - Average wait time at the windows has been reduced from 60 minutes to 10 minutes
- Took a team effort

\* ZIP is a management tool to seek operational efficiencies (See appendix)

# Court Improvements

- Near term facility improvements underway
  - 2014 Main Street building is in the process of being renovated
  - Target completion: December 2012
- New technology being implemented
  - E-Citation
    - In production for DPD Motorcycle Officers
    - 30 day pilot for DPD Patrol to start in mid June
    - E-Citations are automatically uploaded at end of day and recorded into current mainframe case management system (CRTMF) eliminating manual data entry for citations
    - Target for Traffic motorcycles implementation: July 2012

# Court Improvements

## – Court Notify

- Officers check-in by swiping their building access badge; allows prosecutors to check if an officer is in the building
  - Current process is entirely manual and paper based
- Improved officer schedule coordination for court dates by keeping the officer's schedule (work schedule, vacation, sick, County court dates) current in the mainframe system to be used for case docketing
- Target implementation: End of current year

# Court Improvements

## – New Court Case Management System

- Includes integrated system for back office court services
  - Docket management, receipts posting & tracking, payment options (in person, mail, IVR, web), improved surety bond process, collection efforts, improved tracking of non-cash based restitution
- Supports all ZIP process improvement recommendations
- Enables faster implementation of legislative changes due to software publisher's presence in Austin
  - Today, City waits until after the legislative session to analyze required changes

# Court Improvements

- Provides ability to mine data (current, past, pending cases) for an individual or vehicle
  - Today, no ability to easily identify all data /cases for an individual
- Allows prosecution & judiciary to access case and related information electronically at the hearing or trial.
  - Today, no on-line access to the system in the courtroom
- Provides the ability to move to a paperless environment
  - Would provide remote on-line access for defense bar for case review and motion submission
  - Target date for implementation: 4<sup>th</sup> Qtr 2013

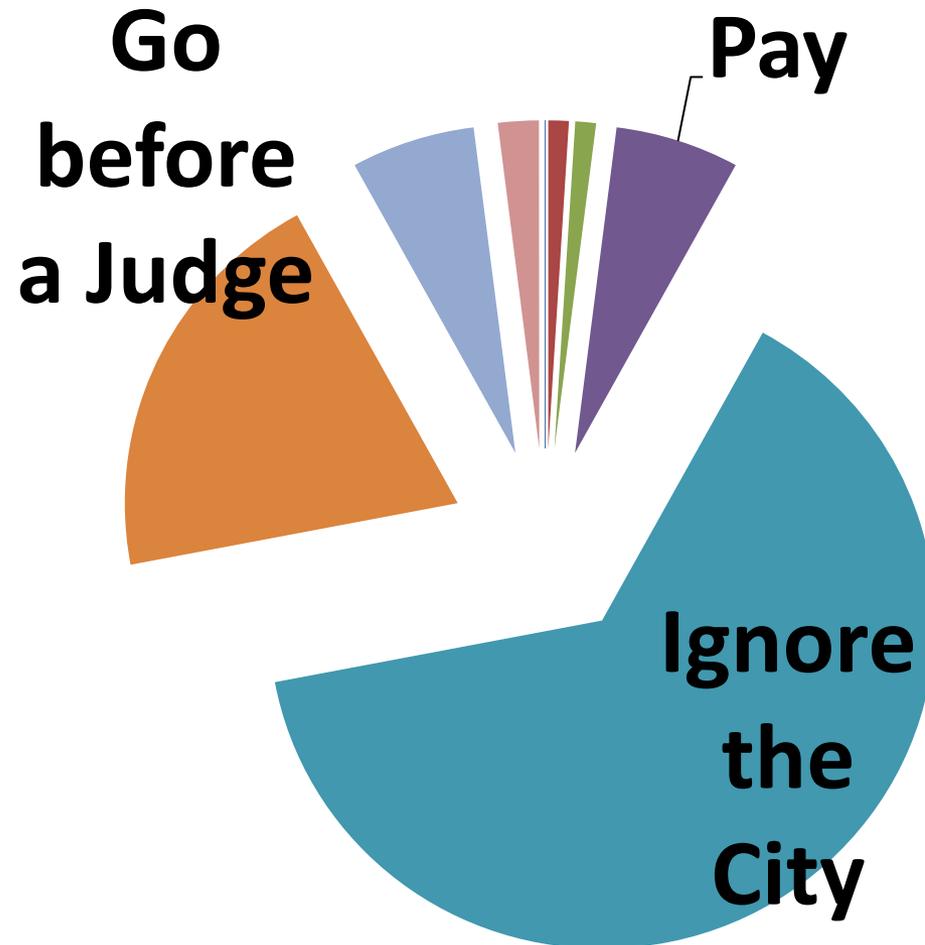

# Court Improvements

- Additional specific Judiciary improvements include:
  - Establishment of Proof or Plea Court
  - Establishment of a Saturday Court docket
  - Changed Magistrate Court to a Trial Court
  - Establishment of double trial dockets (Jury or Non Jury Morning and Afternoon)
  - Added flexibility via off docket for Alias warrants, where a defendant wishes to plead
  - Other off-docket improvements (rotating off-docket Courts)

# Court Effectiveness

- To get a sense of how we are achieving compliance and getting operational results and efficiencies, we analyzed how tickets are being disposed of and costs of operation in two ways:
  - A fiscal year review
  - A five day snap shot

# Options for Defendants

# Some Study Objectives

- What actions do those receiving citations take?
- What happens when they approach:
  - **Court Services; City Clerks; Non-Docketed**
    - Remit payment in person, online, or by mail
  - **Judiciary through Prosecution: Docketed; Before a Judge**
    - Request a Court Program by Mail
      - Deferred Disposition
      - Drivers' Safety Course (DSC)
    - Appear before Proof or Plea Court
    - Set Case for Trial
- How many ignore the City?

# Fiscal Year Review

- We reviewed the **dispositions** of cases that occurred during the last full fiscal year FY 10/11
  - Dispositions would include not only cases filed during the 10/11 fiscal year, but also cases filed in previous years, but heard in FY 10/11

# FY 10-11 Dispositions Highlights

- High percentage of dismissals
- Significant percentage resolved with time served
- Around 25% of fine face value collected
- Deferred cases receive significantly lower fee than the window fine
  - Offered by mail, proof or plea, or trial
- Net operational costs differ significantly

# Drilling Down

- While we are upgrading and enhancing our current computer system, detailed information regarding the cases mentioned above is currently difficult to obtain
- In an effort to get more specific information, we selected a random sample of cases to follow

# Snap Shot Survey

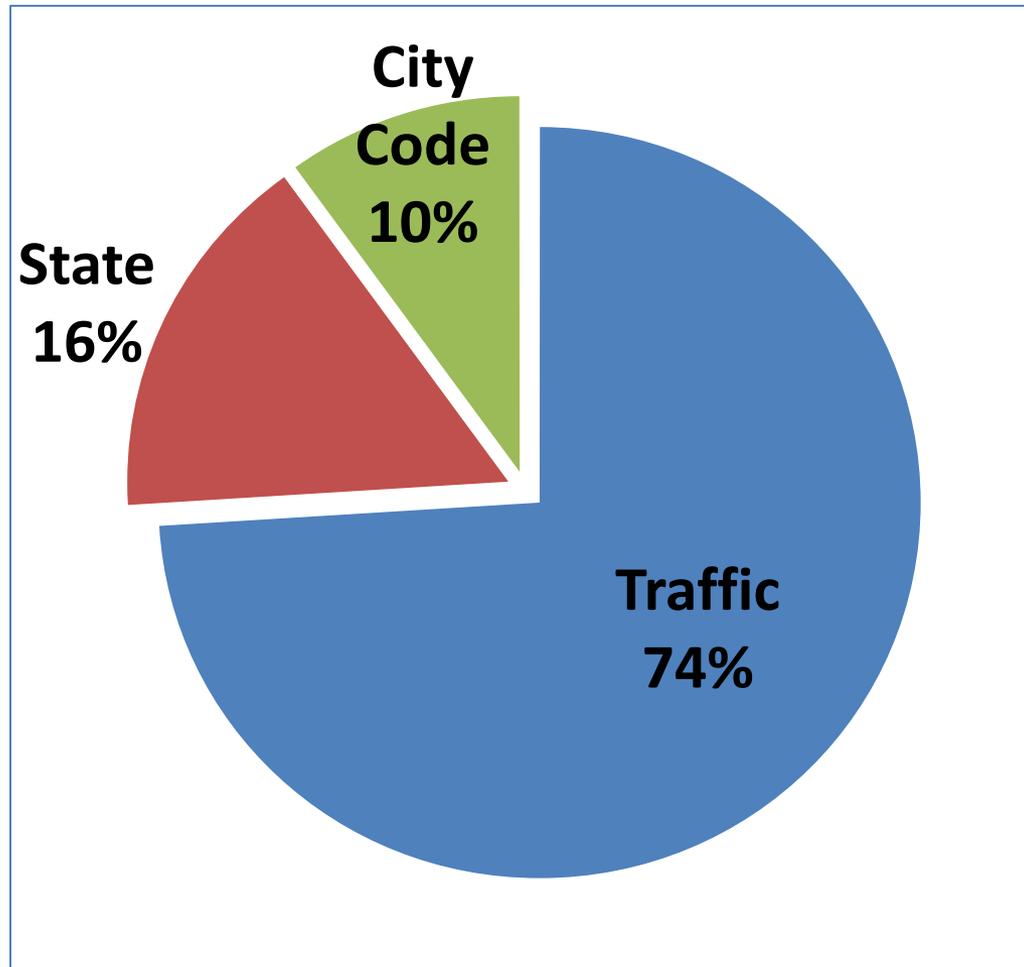

- Randomly selected 5 days from FY 10-11 and followed the disposition of the violations given on those days
- Took snap shots of the status of the cases on days 23 and 180, and roughly a year to evaluate how they moved through the Municipal Court System

# Snap Shot Date Rationale

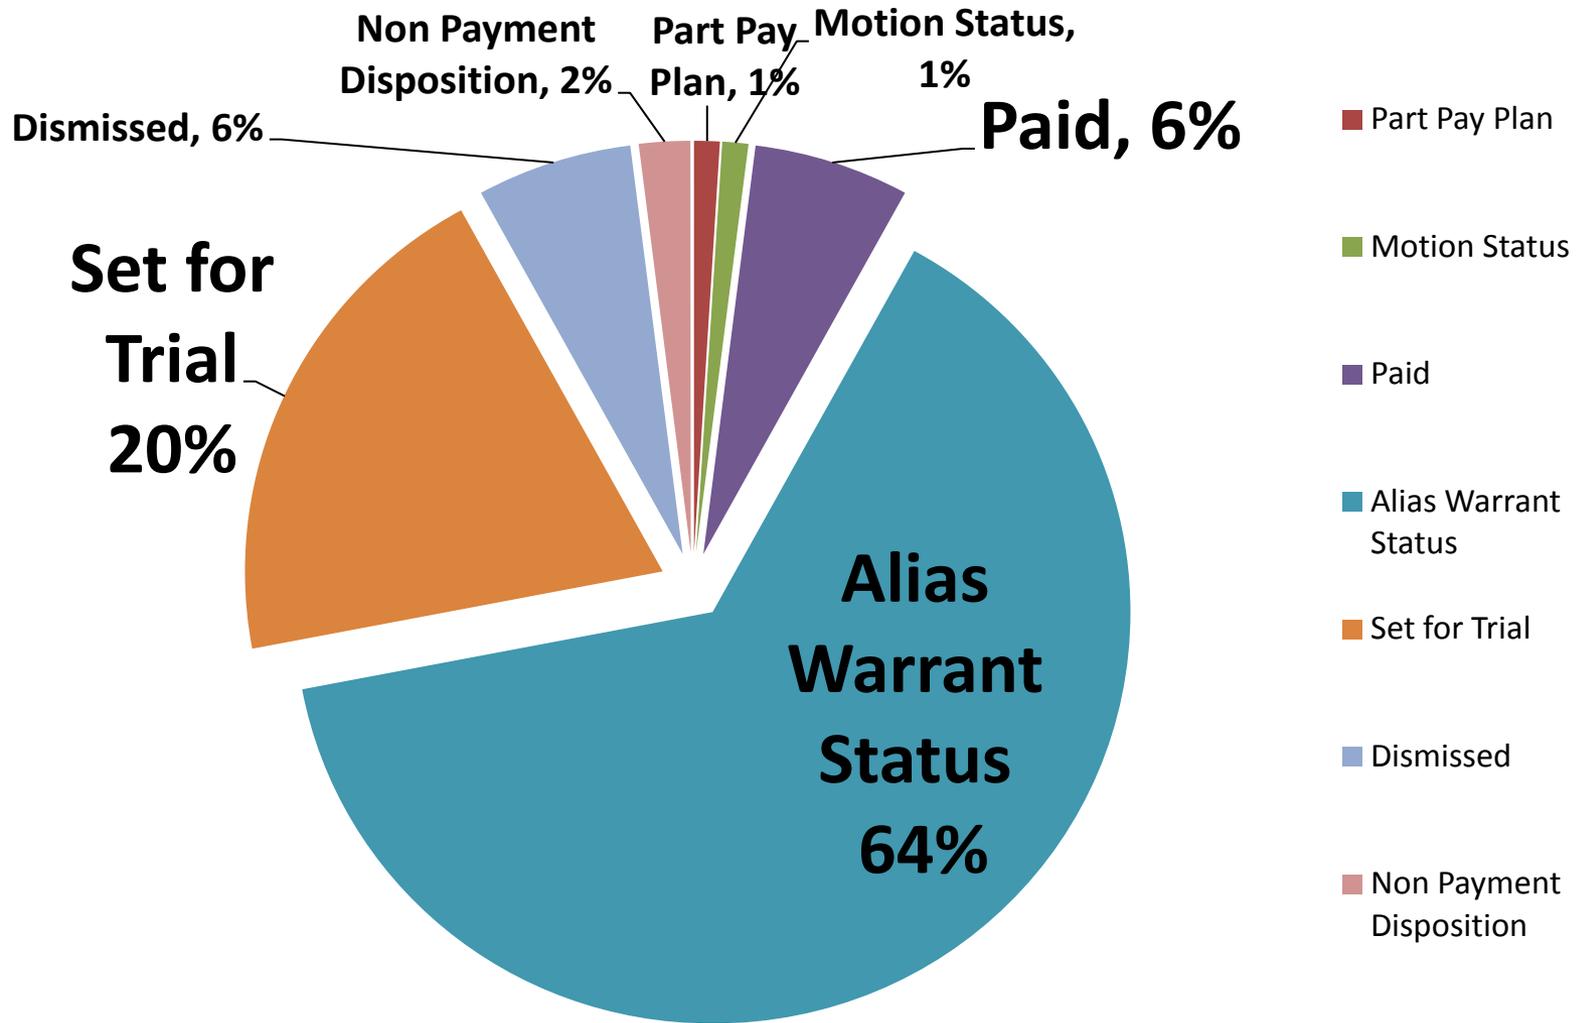

- Defendants are required to respond within 21 days for all violations issued
  - Remit payment in person, online, or by mail
  - Request a Court Program by Mail
    - Deferred Disposition
    - Drivers' Safety Course (DSC)
  - Appear before Proof or Plea Court
  - Set Case for Trial
  - If they don't respond, an Alias Warrant is issued
- Collection of fines after 180 days is very difficult

# Profile of Snap Shot Violations

- Total number of violations was 4,651

# Snap Shot Disposition Status Day 23

## Status Definitions

**Paid** – Money Paid With No Trial Setting

**Non-Payment Disposition** – No payment is made, Community Service completed or Credit Given for Time Spent in Jail

**Dismissed**

**Part Pay Plan** – Defendants make arrangements with the court to pay monthly

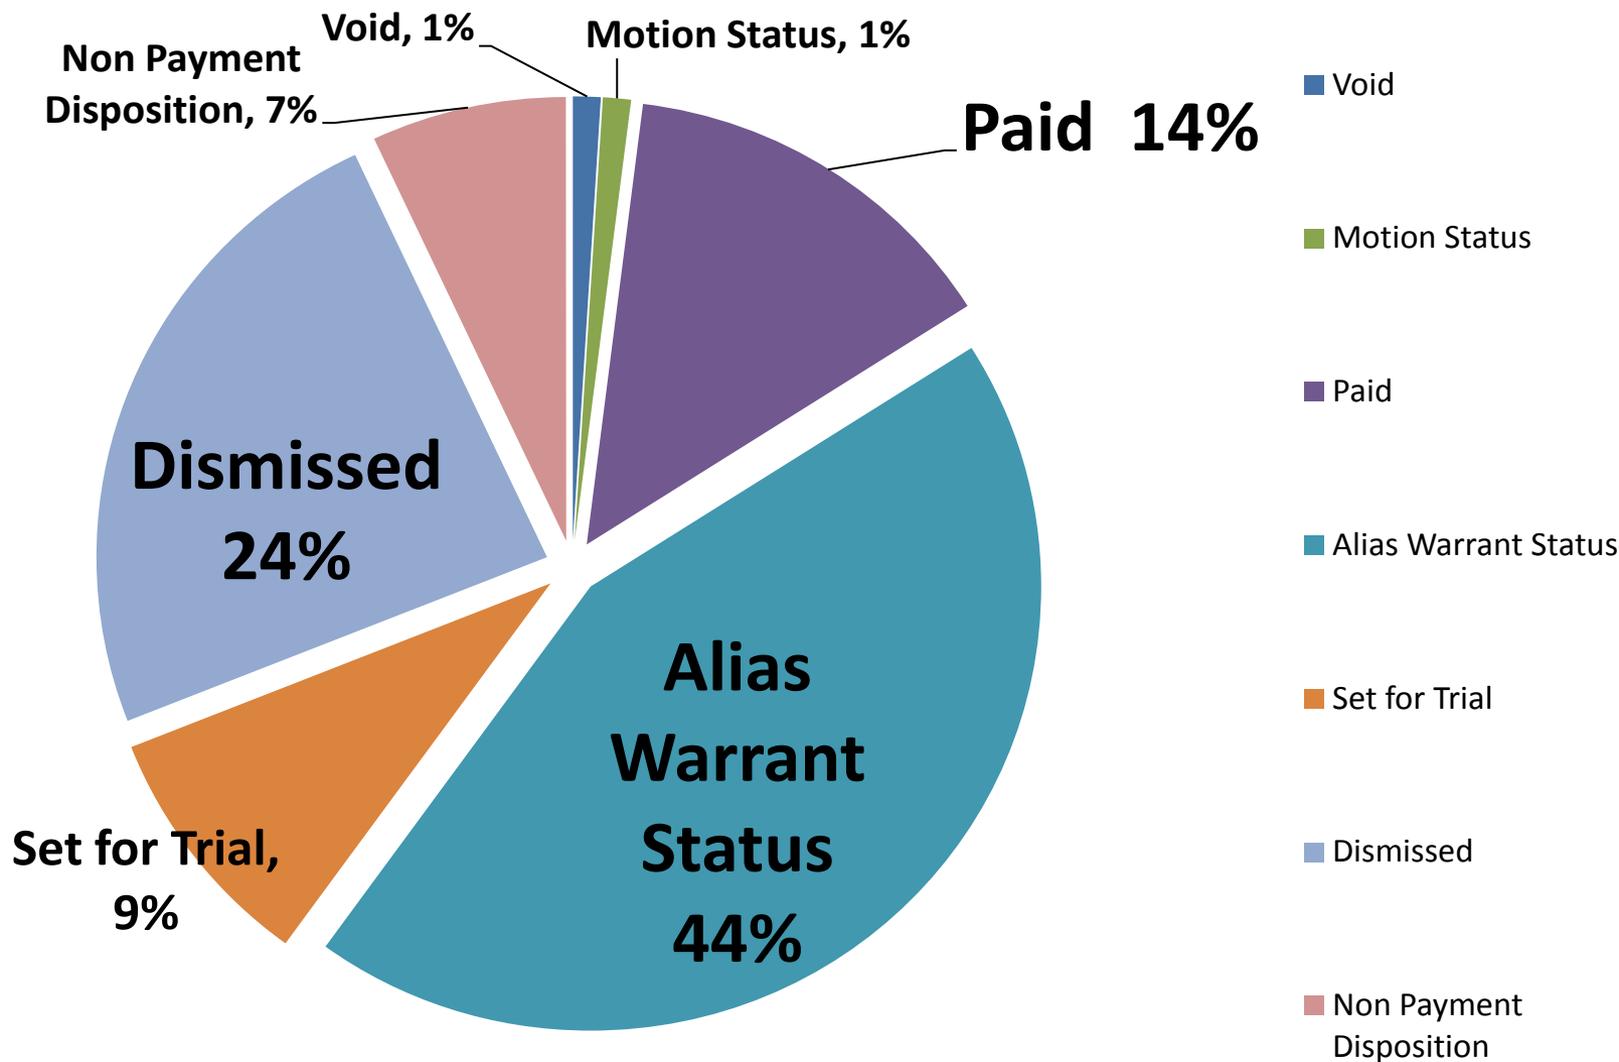

**Motion Status** – Pending some type of action by defendant, usually waiting for payment

**Alias Warrant Status** – The violation has been ignored, no action has been taken by defendant

**Set for Trial** – Pending a trial date

**Void** – Violation is dismissed due to an error

# Snap Shot Disposition Status Day 180

“Alias Warrant Status” and “Set for Court” decrease while the other categories increase

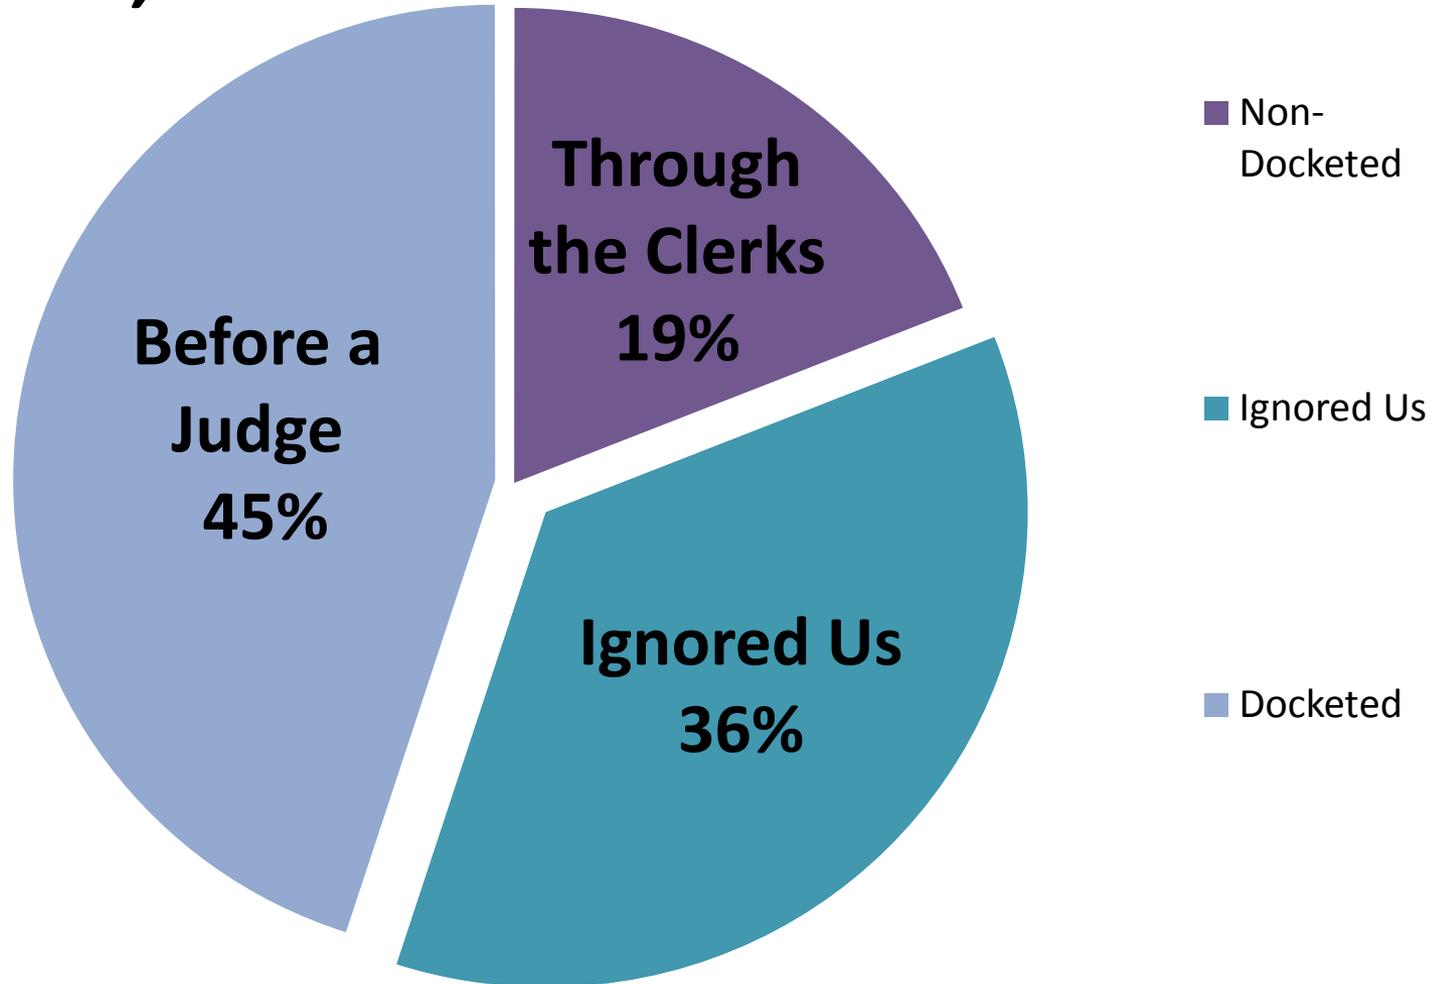

# Day 23 and 180 Snap Shot Changes

# Other Observations of Docketed Cases

- Of the cases before a Judge, 30% have been reset multiple times
  - 76% Attorney/Defendant's request
  - 21% Administrative Reset due to inclement weather
  - 2% Judge Reset the Case
  - 1% State's Request (Prosecutor's Office)
- Of the reset trial cases, the average time it took to dispose of the case was 106 days
- Of the non-reset trial cases, the average time it took to dispose of the case was 66 days

# Other Observations of Docketed Cases

- Of the “multiple reset” trial cases
  - 39% Dismissed Witness Unavailable
  - 24% Dismissed Insufficient Evidence
  - 16% Dismissed Deferred Disposition
  - 8% Dismissed Want of Prosecution
  - 8% Time Served
  - 2% Paid
  - 1% Dismissed Compliance, Voided
  - 1% Dismissed No Outside Witness
  - 1% Dismissed Complaint Quashed

# Other Observations of Docketed Cases

- Of the traffic trial requests
  - 50% were requested within 23 days after the offense date
  - 40% were requested 23 - 180 days from the offense date
  - 10% were requested after 180 days from the offense date

# Judge Ordered Deferred Disposition Fees

State Court Costs Eligible Amount – \$24,342	Fee Eligible for City Amount* – \$43,782
Amount Collected – \$24,342	Amount Collected – \$16,308
• 100% collected for State	• 37% collected for City

\*Window Fine Value, does not reflect the maximum allowable fine (roughly 60%)

# Payments Made Through City Clerks

- 39% of the payments were made online
- 61% of the payments were made at the window or by mail
- 33% were disposed within 23 days after the offense date
- 59% were disposed between 23 – 180 days from the offense date
- 8% were disposed after 180 days from the offense date

# Five Day Snap Shot Highlights

- Significant percentage ignore notices
- High percentage of dismissals
- Around 26% of fine face value collected
- Deferred disposition cases receive significantly lower fee than the window fine
  - Offered both at the window and the Judiciary
- Net operational costs of disposition differ significantly
- Significant percentage of trial cases reset multiple times
- High percentage of transactions now made online

# Outside Collection Assistance

- Currently with Linebarger Goggan Blair & Sampson (LGB&S)
- Collection Activities
  - Turnover begins 60 days after citation goes delinquent
  - Collection letters mailed weekly in English & Spanish
  - Combine multiple citations belonging to single defendant
  - Call Center Response Unit (62 Collectors) makes & receives calls 70 hours/week
  - Auto-dialer and “sound bite phone blaster” campaigns utilized weekly to enhance collections
  - Skip-tracing efforts include national locator services and Texas Driver License Database

# Outside Collection Assistance

- Warrant Round-up Campaigns:
  - LGB&S has supported multiple City Round-up efforts since 2008 by sponsoring:
    - Targeted Mailings of warrant notices
    - Media Blitz (radio, DART, billboard advertisements)
    - Posters for City Buildings
    - Staff Assistance at Marshal's Office
- These collection efforts
  - Are cost free to the City
    - Due to State legislation spearheaded by LGB&S, collection fees are paid by delinquent defendants
  - Have resulted in substantial collections
    - Total Gross Collections since 2002: **\$84,036,929**

# Round-up

# Marshal's Office Warrant Round-Up

## Great Texas Warrant Round-Up

- Includes more than 270 Texas Law Enforcement Agencies annually.
- 2012 marked the 6<sup>th</sup> statewide warrant round-up.
- State Warrant Round-Up compliance efforts consist of:
  - Mailed notices to defendants
  - Bill boards announcements
  - Statewide announcements
  - Radio announcements
- Statistics regarding the overall success of the project are required from each participating agency.

## Dallas Marshal's Warrant Round-Up

- In addition to the Great Texas Warrant Round-Up, the Dallas Marshal's Office conducts two internal Round-Ups annually.
- Summer and Fall Warrant Round-Ups are conducted annually utilizing Dallas Marshals, targeting defendants having 3 or more outstanding City of Dallas warrants.
- Compliance efforts consist of:
  - Mailed notices
  - Telephone calls
  - Payment tracking

# 2012 Warrant Round Up

## Usage of Time Served Recap

- In the 2,043 Cases
  - Involved 893 defendants
  - Arrest cost was approximately \$71,000
  - 30% were Quality of Life Citations (Sleeping in Public, Prostitution, etc.)
  - Value of tickets was \$538,090 or 3,442.2 days of time served following State law minimum guideline
  - 96% were granted time served and paid no money
  - Total penalties imposed: \$20,360 and 522.2 days
    - To date, \$2,187 has been received

# Marshal's Office Warrant Round-Up

- Significant effort is made to arrest those failing to take care of their outstanding tickets
  - Estimated cost to arrest each defendant is \$80
- During Round Up efforts, most citations are disposed of with the time served while being processed in Jail
- Other possibilities exist:
  - Work release
  - Community Service
  - Jail time (dependent on circumstances)

# Time Served

# Time Served

- Time Served is the practice where a defendant is given “credit” for time they served in jail to offset a monetary fine
- Under State Law
  - Defendants, following certain procedures, **must** be given credit for the time they serve for other violations or in other jurisdictions
  - State Law provides that \$50 worth of fine should be offset by no less than 8 hours, but no more than 24
    - This **amount** of the credit given for time served is a matter of dispute in our system
    - Review of sample records suggest there is no standard

# Time Served

- Current practice is that a defendant may have their tickets disposed of with 'time served' if he
  - Is arrested and spends any time in jail before he comes before a judge
  - Has spent any time in jail on other violations (whether in other jurisdictions, different types, or multiples of same type, etc.)
  - Has spent some time in jail and brings multiple tickets before the Judge; is then applied concurrently
    - If a person has ten tickets and is in jail one day, all tickets are credited with the one day
    - The fine is usually set at a level where the time served offsets the fine

# Time Served

- Reasons given for the practice include:
  - Defendant's freedom was taken, that should be sufficient
  - If monetary penalty is added to jail time, penalty is imposed twice,
  - Lack of jail space; it costs the City to have a prisoner in jail
  - This provides a means to clear tickets outstanding status

# Other non-financial penalties

# Work Release

- Work release
  - Court program that allows a defendant to work at the City of Dallas in lieu of payment of fine
  - Seven departments utilize the City's work release program (custodial duties, etc.)
  - Non-docket process by the court clerk (if amount due is less than \$600) or granted in the courtroom
  - Current practice is credit given at \$100 per 8 hour work day

# Community Service

- Community Service
  - Court program that allows a defendant to work at a non-profit agency (or coordinated through the Volunteer Center) in lieu of payment of fine
  - Non-docket process by the court clerk (if amount due is less than \$600) or granted in the courtroom
  - Current practice is credit given at \$100 per 8 hour work day

# Jail Time

- Jail Time

- State law provisions

- Class C Misdemeanors are not punishable by jail time; fine only
    - However, time served in jail can be credited as discussed above
    - Warrants for a person's arrest are issued for failing to appear in court or failing to comply with Judges' orders, with the understanding,
      - Failing to appear in court, alone, is not aailable violation
      - Failure to comply with a judge's order is aailable violation

# Jail Time

## – Detention options

- Lew Sterrett Jail

- City contracts with Dallas County for the provision of 100 beds a day for Class C's
- Most of the City's costs are fixed
- An additional \$58 is charged per night for each bed used
- Currently use about 42% of its capacity

- City Detention Center

- Owned and operated by the City
- Has a capacity for about 160 individuals
- Currently used for intoxication and other Class C violators; used for quicker Police turnaround

# Jail Time

- Jail time is used by those\*:
  - Arrested and awaiting a Judge (magistration) to enter a plea, be sentenced for failure to comply with judgments, be declared indigent, be found guilty, etc.
  - Choosing to “sit it out” (stay in jail) rather than pay
  - Ordered to stay for failing to comply with Judges’ order

\* In the context of Class C Misdemeanors

# Jail Time

- Judges have the discretion to set out jail time for those that have been found guilty and failed to comply with a Judge's order. Some of the factors that might be used in sentencing could be:
  - Lack of good faith effort
  - Personal circumstances of defendant
  - Physical condition of defendant
  - Financial ability of defendant
  - Other factors deemed appropriate by the Judge

# Jail Time

## – Indigency

- Some individuals are not able to pay fines (in contrast with those who chose not to pay)
- A Judge can make the determination that one is unable to pay based on information supplied by the defendant
- If a decision is made that the defendant is indigent (after being found guilty) then work release/community service can be used to satisfy the financial penalty

# Overall Observations

- Many operational improvements have been implemented, or are in progress, to make the primary customer, the citizen, make their way through the Court more efficiently
- Low collection rates raise several concerns
  - Consistency with expectations
  - Impact on compliance, community safety and values
  - Impact on operational costs
  - Unintended consequences with changes

# Overall Observations

- Operations changes to upgrade scheduling of Police (Court Notify) and enhance ticket writing accuracy and court testimony (E-citations) are critical for the next level of Court operation improvement
  - Police have strengthened supervisory oversight of officers to insure they appear at designated trials and are prepared
  - A multi-departmental task group has been charged with completing enhancements on time

# Overall Observations

- Time served is used in a significant percentage of violations to dispose of cases
  - Raises questions as to the value of the Warrant Round Up effort, or any effort by police, to arrest those ignoring City notices
  - There is not agreement as to how State Law should be applied
- Fines rarely reflect cost of trial

# Overall Observations

- Most defendants choose to either ignore citations or go to Court. Is a logical choice:
  - Likelihood is the violation will be dismissed or result in less penalty than paying the fine upfront
  - No financial disincentives in going to Court
  - Ignoring citation creates little additional risk
    - Even if arrested, most receive little to no financial/community service/jail penalty

# Overall Observations

- The Judiciary is an independent body, however:
  - Can they, as a body, work to frame some parameters for operations and/or judgments?
  - What powers could be delegated to a presiding judge to manage these determinations?
- While operational efficiencies can be enhanced, it appears the market is responding to Municipal Court practices seeking least cost (first), least trouble (second), least damage to their driving record (third)

# Current Court Practices Comparison

Current Dallas Practice	Problem	Best Practice Elsewhere
Subpoena and court scheduling systems not integrated	Schedule conflicts result in case dismissals due to lack of witnesses, weakening effectiveness of laws	Court subpoena automatically blocks officer leave requests and system avoids conflicting court dates (Dallas County)
Defendant requesting a trial is still eligible to receive same reduced penalty previously available	Creates incentive to request trial as a maneuver to see if officer is absent, maximizing City's cost, but at no risk to defendant	No plea bargains on trial date, so conviction or guilty plea at trial yields maximum penalty. Most defendants take a deal in advance. (Plano)
Judges frequently grant repeated continuance requests	Increases likelihood that witness isn't available or can't recall details of case. Inconvenient for citizen, if City delays.	Resets require compelling justification (Richardson) Maximum 1 reset per side (Fort Worth)

# Current Court Practices Comparison

Current Dallas Practice	Problem	Best Practice Elsewhere
Administrative judge can set policies, but has no other authority or direction to enforce	Administrative Judge has little authority to set and enforce local rules and procedures	A Presiding judge actively supervises other judges, issuing procedural and policy directives. Reviews performance and recommends on reappointment. (Austin)
Time served not tied to fine schedules	Lax valuation can remove incentive to obey laws	Time served in jail for City warrants is valued proportionally at \$100 per 24 hours clocked. (Fort Worth)
Community service and work release not consistently monitored at hourly rate to work off value of fine.	Lax valuation and monitoring can remove incentive to obey laws and fail to provide a substantive benefit to defendant or organization	Community service & work release valued at \$12.50 per hour, monitored by Volunteer Center. (Garland)

# Current Court Practices Comparison

Current Practice	Problem	Best Practice Elsewhere
Allow defendants who fail to respond to citations or appear for trial to have cases set on the trial docket by submitting an off-docket motion, but no bond	Defendant is allowed to delay a trial setting increasing likelihood that the officer will not recall the facts of the case. When the officer does not have factual recall, the case will be dismissed for insufficient evidence.	Defendants who do not respond to citations or trial settings are required to post either a cash or surety bond to secure their appearance at trial. (Plano)
Limited information is gathered on persons seeking payment plans.	Payment plan collections are poor.	More detailed information is collected making it easier to enhance collections. (Garland)

# Current Court Practices Comparison

Current Practice	Problem	Best Practice Elsewhere
<p>No mandatory pre-trial hearings are conducted with defendants and prosecutors to determine if citations can be satisfied without a trial.</p>	<p>Often, trial settings are used to collect or give information which could be more efficiently handled at a pre-trial hearing.</p>	<p>Mandatory pre-trial meetings are held to collect information and resolve a citation without the need for a trial. This saves court resources which includes judges, bailiffs, and police overtime. (Irving)</p>
<p>Deferred dispositions are granted at a significant discount from the window fine.</p>	<p>Rationale for offering this benefit at half the window fine amount is flawed, given overall operational expense levels</p>	<p>Full window fine amounts are charged when deferred disposition is provided on the day of trial. (Irving)</p>

# Current Court Practices Comparison

Current Dallas Practice	Problem	Best Practice Elsewhere
Paper intensive process for court docket paperwork	Limited automation makes operations expensive and information analysis extremely difficult.	Paperless trial docket system (Ft. Worth)
No tiered fine structure is offered for early payment	Without any financial incentive given, very few pay their fines within the first 21 days. More delay creates greater risk of defendants to seek court dates or ignore the citation altogether.	Tiered fines are provided which include a financial incentive for prompt payment. (Austin)

# ZIP Process

# City of Dallas ZIP Process

- William Edwards Deming was an American statistician, college professor, author, lecturer, and consultant. Deming is widely credited with being the father of process improvement.
- Zoom Improvement Process (ZIP) is a Deming based improvement method the City of Dallas uses to enhance performance and eliminate waste.
- This process was used to help define the numerous Municipal Court improvements described below:

# City of Dallas ZIP Process

- Deferred Disposition by Mail – this program gave defendants the ability to request deferred disposition without having to physically appear in court
- Website has been enhanced to allow defendants to pay online
- Express pay lines have been implemented to allow for faster case disposition for defendants that want to pay off the citation
- Saturday Court – This court is designed to provide defendants easier access to court programs so that more delinquent cases may be brought into compliance. Increased the courts case capacity by 10%.

# City of Dallas ZIP Process

- Scofflaw Program – A partnership with Dallas County that allows the county to deny vehicle registration to citizens, if they have an outstanding warrant with the City of Dallas. Once the citizen clears their citations they are allowed to register their vehicle. Started in 2010, has brought hundreds of cases into compliance.
- Full-Time Proof or Plea Court – This court is designed to provide easier access to the court so a defendant can easily request a court program without a court date. It is estimated that having the Proof or Plea court increases the court's case capacity by 23%.

# City of Dallas ZIP Process

- Customer Surveys are conducted quarterly since 2008 and the average rating has been 80% satisfied
- Omni base Program – This program is a partnership with the Department of Public Safety to deny renewal of driver's license until a defendant has cleared their warrant with the City of Dallas.

# City of Dallas ZIP Process

- Internal Collection Unit – Within 5 days past delinquency Court and Detention Services begins sending collections letters to defendants. From 1 day to 60 days past delinquency the internal collection unit will send at least 3 letters to each defendant.
- Outside Collection agency – 60 days after delinquency case information is sent to Linebarger Goggan Blair & Sampson the city's outside collection agency. The collection agency has a five year contract with the city and is only paid by a 30% add-on fee to each citation which is paid by the delinquent defendants.

# Remodeling work

# 2014 Main Street Remodeling

- Upgraded Data Network
  - Replace all legacy wiring & network hardware; original wiring in the building was installed in the early 1990's.
  - New network hardware provides higher speed connections and more transmit capacity
  - New network will be monitored under the AT&T Managed Service contract 7 days a week 24 hours a day to identify issues and take proactive remediation
- Wireless access in common areas including court rooms
- New Phones
  - Improved features & functions like redial, edit redial, logs of received, missed, & placed calls, citywide electronic directory lookup, call forward; etc.
  - Monthly recurring cost reduction from \$35 to \$28 per month/phone will result in approximately \$2,000 / month cost reduction
  - The new phones will meet the City's current technology standards; the old phones are no longer supported by manufacturer and replacements are difficult to acquire.

# 2014 Main Street Remodeling

- Improved Security
  - Security Card access (badge readers) to non-public areas
  - Expanded use of Closed Circuit TVs (CCTV)
  - Ability to monitor 2014 Main security cameras from EBS Central Security office – L1AN
- Digital Audio Recording in Court Rooms; recordings were done on cassette tapes. The cassette systems have fully or partially failed in most of the court rooms.
